## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

3. Claims 1, 3-4, and 7-8, are rejected under 35 U.S.C. 103(a) as being unpatentable over Hires (US 2,254,893).

4. In respect to claims 1, 3, and 7, Hires discloses a binder sheet removably inserted into a binder comprising: a binding portion, having holes 2, and a paper storing portion 4; an upper horizontal band 8 (opposite binding portion) attached to an upper portion (along the edge) of the paper storing portion, with vertical attachment lines on left and right side edge of the upper horizontal band 8 (i.e. the entire upper portion is adhered and any small slice construed to be an "edge" has a vertical line of adhesive

thereon); a lower horizontal band 8 (adjacent binding portion) attached to an lower portion of the paper storing portion, with vertical attachment lines on left and right side edge of the upper horizontal band 8; and a middle horizontal band (e.g. 13 or 14) between the upper and lower bands (Fig. 1); the binder sheet is capable of exposing large portions of paper (e.g. paper 6) other than portions covered by the bands. Hires discloses that the binder sheet may be formed of any desired material (Col. 1, 52-54) but does not specifically disclose a transparent material however it would have been obvious to one of ordinary skill in the art at the time the invention was made to provide the binder sheet as a transparent material since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416. Further, known transparent materials such as cellophane are disclosed in Hires (Col. 2, 39-41)

5. In respect to claim 4, Hires disclose all of the claimed subject matter for the reasons stated above. If the binding portion is construed to be the left side, bands 8 are left and right vertical bands.
6. In respect to claim 8, Hires further disclose that the upper and lower edge bands 8 may be opaque (colored).

***Response to Arguments***

7. Applicant's arguments with respect to claims 1, 3-4, and 7-8, have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
